DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I, claim(s) 1-14, drawn to methods for delivering particles which comprise a nucleic acid molecule wherein said particles do not include a biolistic core carrier.

Group II, claim(s) 15-40, drawn to methods, pharmaceutical compositions and containers for forming densified particles.

2. In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- a. The special technical feature of Group 1 is considered to be a method for delivery of nucleic acid molecules, and a composition thereof, to a target tissue or cell using a needleless syringe and wherein the nucleic acid particles do not include a biolistic core carrier.

Art Unit: 1633

b. The special technical feature of Group II is considered to be a method for forming densified particles.

4. Accordingly, Groups I and II are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept. Furthermore, the groups relate to wholly different methods, with different end results and goals and which utilize wholly different protocols, materials and reagents to practice the invention(s) claimed in each group.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
